

BornAgain - Feature #1062

Add item in drupal's troubleshooting section explaining possible interference between BornAgain and Mantid on MacOS

30 Apr 2015 16:34 - pospelov

Status:	Archived	Start date:	30 Apr 2015
Priority:	Normal	Due date:	
Assignee:	pospelov	% Done:	0%
Category:		Estimated time:	0.00 hour
Target version:	Sprint 27		
Description			
If Mantid is defined in DYLD_LIBRARY_PATH, then BornAgain doesn't work from Python. During import bornagain, libgsls from Mantid installation loads first and then conflicts with our core.			
Thanks to tevelthuis@anl.gov
