

BornAgain - Bug #1066

Model lost after unsuccessful load

08 May 2015 19:37 - a.glavic

Status:	Archived	Start date:	08 May 2015
Priority:	High	Due date:	
Assignee:	pospelov	% Done:	0%
Category:		Estimated time:	0.00 hour
Target version:	Sprint 27		
Description			
<p>After trying to load the attached model there is an error in the instrument parameters that breaks the load process. The model seems to be loaded fine but when answering OK to the error message the model is gone.</p> <p>Removing the jobs from the model makes it loadable again.</p> <p>This was the error message: Failed to load the project '{Folder}/VR8_2_0.pro' Exception was thrown with the error message 'ConstKBinAxis::ConstKBinAxis() -> Error. start >= end is not allowed.'</p> <p>The behavior might be changed to ignore errors when loading a model and replace unvalid parameters with there default.</p> <p>BornAgain version 1.1.0, compiled on Kubuntu 14.10</p> <ul style="list-style-type: none">• Take care also ProjectDocument::loadOutputData() which has to warn user in the case of unsuccessful load

#2 - 11 May 2015 10:06 - herck

- Status changed from New to Backlog

#3 - 11 May 2015 16:46 - pospelov

- Status changed from Backlog to Sprint

- Target version set to Sprint 27

#4 - 19 May 2015 11:14 - pospelov

- Description updated

#5 - 19 May 2015 12:25 - pospelov

- Assignee set to pospelov

#6 - 19 May 2015 14:38 - pospelov

- Status changed from Sprint to Resolved

Can't reproduce same behaviour, but I have already fixed bug with missed *.int files, hopefully it helped for this one too.

#7 - 10 Jun 2015 18:19 - pospelov

- Status changed from Resolved to Archived
