

BornAgain - Refactoring #1296

Feature # 418 (Rejected): === Configuration & Build ===

update internal information about performance tests

02 Feb 2016 15:02 - wuttke

Status: Archived	Start date: 02 Feb 2016
Priority: Normal	Due date:
Assignee:	% Done: 0%
Category:	Estimated time: 0.00 hour
Target version: Sprint 31	
Description wiki page http://apps.icns.fz-juelich.de/redmine/projects/bornagain/wiki/Performance_test seems outdated. What is "App/App"? Doesn't work for me. [resolved by deletion of App/ - apr16] Relation to dev-tools/log/perf_history.txt is not explained. How are entries to that log file generated?	

History

#1 - 10 Feb 2016 16:27 - pospelov

- Status changed from New to Sprint
- Target version set to Sprint 31

#2 - 23 Mar 2016 16:38 - jmfisher

Updated wiki to describe usage of new Python script for performance testing. This reproduces the performance test functionality of App and generates output in the same format as the entries in perf_history.txt.

#3 - 27 Apr 2016 13:30 - wuttke

- Tracker changed from Documentation to Refactoring
- Description updated

#4 - 25 May 2016 16:31 - wuttke

- Status changed from Sprint to Resolved

Information in README files updated.
Wiki main page provides links to README files.

#5 - 04 Jul 2016 11:23 - herck

- Status changed from Resolved to Archived
