

BornAgain - Refactoring #1422

Feature # 1290 (Rejected): === Core: framework ===

Refactoring # 1291 (Resolved): core functional test machinery: simplify, or at least explain

provide clue when test fails

27 Apr 2016 13:37 - wuttke

Status:	Resolved	Start date:	27 Apr 2016
Priority:	Normal	Due date:

Category:		Estimated time:	1.00 hour
Target version:			
Description			
<ul style="list-style-type: none">• when reference test fails, indicate location of old and new image• when python test fails, provide a clue what to do• after reference test failed and was updated, I needed to run 'make install' before 'make check' worked (before, a python script failed)			

History

#1 - 08 Jun 2016 08:41 - wuttke

It would be nice to let ctest print an informative footer, but there seems to be no simple way: <http://stackoverflow.com/questions/37677077>.

#2 - 10 Jun 2016 15:18 - wuttke

- Status changed from New to Resolved

- Assignee set to wuttke

- Estimated time set to 1.00

Resolved in f72cbb5. CTest actually does have a pertinent macro, see my own answer at <http://stackoverflow.com/questions/37677077>.
