Feature # 861 (Rejected): === Website & Examples ===

update to Drupal 8

03 Jun 2016 11:52 - wuttke

Status:	Rejected	Start date:	03 Jun 2016
Priority:	Normal	Due date:	
Assignee:		% Done:	0%
Category:		Estimated time:	0.00 hour
Target version:			
Description			
especially if we want to use RESTful service to automatize update of Python example scripts, #1437			

History

#1 - 06 Jun 2016 07:50 - pospelov

Suggested order of upgrade:

- Install drupal locally
 - with Bitnami Drupal stack <https://bitnami.com/stack/drupal/installer> it is very easy to get full configured installation on your linux/mac/win desktop.
- Copy bornagainproject.org to your local drupal
- Make upgrade to drupal 8
- Migrate upgraded bornagain back to app server (parallel to drupal7)
- Make a switch for the user

Also we can combine this with app server upgrade to CentOS6.

#2 - 06 Jun 2016 09:46 - wuttke

- *Description updated*

#3 - 16 Nov 2016 18:04 - wuttke

- *Status changed from New to Rejected*

Not clear whether Drupal 8 is mature enough and worth the move.

Anyway, this upgrade is not an aim in itself, but should only be undertaken if it is determined to be the right solution for the various problems we have with Drupal 7.
