

BornAgain - Refactoring #1484

Feature # 964 (Rejected): === GUI ===

GUI: refactor InstrumentItem and DetectorItem

01 Jul 2016 13:46 - pospelov

Status:	Resolved	Start date:	01 Jul 2016
Priority:	Normal	Due date:	
Assignee:	pospelov	% Done:	0%
Category:		Estimated time:	0.00 hour
Target version:	Sprint 33		
Description			
<ul style="list-style-type: none">• Introduce DetectorContainerItem• introduce common base DetectorItem for SphericalDetectorItem and RectangularDetectorItem• move domain detector/instrument generation on board of corresponding items• move MaskContainer ownership to detector items • Change ComboProperty: it should store the whole list of available strings. Take care of ComboProperty during serialization across the whole project • It will automatically resolve #1637 • Refactor JobItem::JobItemHelper in the context of IntensityData serialization (ComboProperty with units)
