

BornAgain - Configuration #1501

Feature # 418 (Rejected): === Configuration & Build ===

Feature # 1686 (Rejected): == Release procedures and pre-release actions ==

Configuration # 1150 (Rejected): Improve release script procedure

version tag must start with 'v' (change release script or instructions)

11 Jul 2016 12:58 - wuttke

Status:	Archived	Start date:	11 Jul 2016
Priority:	Normal	Due date:

Category:		Estimated time:	0.00 hour
Target version:	Sprint32		

Description

Per agreement with Cristiano Feldero, version tags should always start with 'v'. Hence 'v1.6.0', not '1.6.0'.

Is the version tag automatically set by a release script? Or is there a wiki page with release instructions that needs to be changed?
