

BornAgain - Feature #1534

=== Parameter handling ===

25 Jul 2016 19:29 - wuttke

Status:	Rejected	Start date:	10 Jan 2014
Priority:	Normal	Due date:	
Assignee:		% Done:	100%
Category:		Estimated time:	0.00 hour
Target version:			
Description			
Parameter handling needs a separate envelope tasks, because it cannot be subsumed under Core, Fit, or GUI: it concerns all those three.			
Subtasks:			
Feature # 853: Provide particles with size distribution in GUI			Rejected
Refactoring # 889: Remove Stochastic parameters in favour of IDistribution classes			Archived
Refactoring # 568: Refactor ParticleBuilder			Archived
Testing # 1013: Check consistency of depth and abundance between GUI and core			Archived
Feature # 1017: Provide basic working GUI version of ParticleDistribution with single p...			Archived
Feature # 1018: Refactor GUI (and possibly core) version of Transformation to enable a ...			Archived
Feature # 1019: Extend GUI ParticleDistribution with linked parameters			Resolved
Feature # 1020: Refactor GUI (and possibly core) version of Transformation to enable a ...			Archived
Feature # 890: Formfactor restrictions in fitting and distributions			Rejected
Refactoring # 1428: Compactify code that handles parameters (use abstract mechanism ins...			Archived
Feature # 1463: possibility to specialize generalize physical models on the fly			Rejected
Feature # 1478: Refactor FitParameterLinked to provide simultaneous fit of several samp...			Resolved
Bug # 1498: Fitting in GUI: values for all fitting parameters are reported as the same			Archived
Feature # 1513: Provide more informational throw message from RealParameterWrapper.			Archived
Feature # 1525: consider parameters of types int, enum, bool			Rejected
Refactoring # 1538: AttLimits::isInRange(value) returns true for value==m_lower_limit, ...			Rejected
Refactoring # 1565: to associate units with parameters, use string instead of inheritance			Archived
Refactoring # 1570: replace parameter accessor methods getFoo() by getParameterValue("F...			Rejected
