

BornAgain - Refactoring #1549

rename class FitSuite

01 Aug 2016 11:22 - wuttke

Status:	Rejected	Start date:	01 Aug 2016
Priority:	Low	Due date:	
Assignee:		% Done:	0%
Category:		Estimated time:	0.00 hour
Target version:			
Description			
»FitSuite« is one possible name for the entire fit library (#1548).			
It is not so good a name for the top-level class that connects the fit library with the application, depends on the application, and therefore is defined and implemented in files that reside in the application.			
Proposals:			
<ul style="list-style-type: none">• FitOwner• FitController• ManageFit• RunFit			

History

#1 - 03 Aug 2016 10:37 - wuttke

- Parent task changed from #284 to #1566

#2 - 04 Aug 2016 12:51 - herck

I vote for FitController

#3 - 04 Aug 2016 13:23 - pospelov

I don't like FitController that much. It is also hard to explain users, why we have renamed FitSuite to something else.

As for the name of the general library, FitSuite is a bit pretentious (ba.FitSuite still not), and may make users expecting too much. We will be only able to deliver collection of minimisers under common interface.

Also there is FitSuite here

<http://www.fs.kfki.hu/index.html>

These are our Hungarian friends

Nevertheless, here are a bit more options to not to let this fruitful discussion ends too early

- FitPlan
- FitAssistant
- FitEntity
- FitSession
- FitTerminal
- FitUnit
- FitWorkstation

#4 - 04 Aug 2016 15:48 - wuttke

- Status changed from Rfc to Waiting
- Priority changed from Normal to Low

#5 - 01 Dec 2016 16:05 - wuttke

- Status changed from Waiting to Rejected

will come up automatically with [#1469](#), no need for action till then

#6 - 18 Sep 2020 16:47 - wuttke

- Parent task deleted (#1566)

name will be MuMuFit, by the way
