

BornAgain - Feature #1669

Allow for multiple form factors (dwba or not) in FromFactorWrapper and rename accordingly

24 Nov 2016 11:27 - herck

Status:	Resolved	Start date:	24 Nov 2016
Priority:	Normal	Due date:	
Assignee:	herck	% Done:	0%
Category:		Estimated time:	0.00 hour
Target version:	Sprint 33		
Description			
Since the dwba form factors contain the respective layer Fresnel coefficients, this would allow for a coherent treatment of shapes in different layers.
