BornAgain - Feature #1772

GUI: implement projections editor for ImportView widget

24 Feb 2017 14:32 - pospelov

Status:	Resolved		**Start date:**	24 Feb 2017
Priority:	Normal		**Due date:**	
Assignee:	pospelov		**% Done:**	0%
Category:			**Estimated time:**	0.00 hour
Target version:	Sprint 36			

Description

In addition to mask editor, we can provide projections editor (which is already implemented on JobView) on ImportDataView. Users will be able to load data and immediately look at horizontal/vertical projections.

Mask editor

- revise tooltips

Projections editor

- provide automatic switch of Horizontal/Vertical projections tabs on corresponding button
- In "pan" mode disable cursor change when hover on existing projection
- revise tooltips
- provide save of projections to file (txt, png)
- provide dynamic text label with mouse position on projection editor
- make sure axes units switch is working
