

BornAgain - Bug #1776

SpecularSimulation gives wrong results when top layer is not vacuum

13 Mar 2017 13:15 - herck

Status:	Resolved	Start date:	13 Mar 2017
Priority:	Normal	Due date:	
Assignee:	herck	% Done:	0%
Category:		Estimated time:	0.00 hour
Target version:	Sprint 33		
Description			
When running a SpecularSimulation with only two layers, $ R ^2$ is not one below the critical angle of the top layer.
