

BornAgain - Bug #1970

Rearrange directory structure of Win installer

20 Feb 2018 15:02 - pospelov

Status:	Resolved	Start date:	20 Feb 2018
Priority:	Normal	Due date:	
Assignee:	herck	% Done:	0%
Category:		Estimated time:	0.00 hour
Target version:	Sprint 36		
Description			
BornAgain-1.10.11			
bin			
BornAgain.exe <--- QApplication::setLibraryPaths			
python <--- PYTHONPATH			
bornagain			
__init__.py <--- os.path.append("../libs") for Windows only			
libs			
libBornAgainCore			
libboost			
imageformats/			
platforms/			
<ul style="list-style-type: none">• On NSIS site remove BornAgain/bin from PATH• Add BornAgain/python to PYTHONPATH • May be still split ./libs to Qt-related and non-Qt to avoid potential problem with Anaconda's matplotlib • Check if Python3.dll is still necessary for packaging (boost-python is not there anymore)
