

## BornAgain - Feature #2046

### Provide defense against running Python script with wrong version of Python interpreter

03 May 2018 12:08 - pospelov

<b>Status:</b>	Rejected	<b>Start date:</b>	03 May 2018
<b>Priority:</b>	Normal	<b>Due date:</b>	
<b>Assignee:</b>		<b>% Done:</b>	0%
<b>Category:</b>		<b>Estimated time:</b>	0.00 hour
<b>Target version:</b>			
<b>Description</b>			
Common mistake from the user:			
<ul style="list-style-type: none"><li>• compile BornAgain against Python3</li><li>• run Python example using default system interpreter python-&gt;python2.7</li></ul>			
It should be possible to propagate expected Python number in our <i>init.py</i> and then warn the user, if actual interpreter differs.			

#### History

##### #1 - 10 May 2019 16:33 - wuttke

- Subject changed from *Provide defence against running Python script with wrong version of Python interpreter* to *Provide defense against running Python script with wrong version of Python interpreter*
- Assignee set to wuttke

##### #2 - 10 May 2019 16:40 - wuttke

- Status changed from *Backlog* to *Sprint*

##### #3 - 10 May 2019 17:19 - wuttke

- Status changed from *Sprint* to *Backlog*
- Assignee deleted (wuttke)

##### #4 - 18 Sep 2020 22:39 - wuttke

- Status changed from *Backlog* to *Rejected*

Problem will slowly disappear with phasing out of Python2
