

BornAgain - Bug #2107

The project crashes on attempt to change limits of fit parameter in GUI

06 Jul 2018 16:59 - dmitry

Status:	Resolved	Start date:	06 Jul 2018
Priority:	Normal	Due date:	
Assignee:	dmitry	% Done:	0%
Category:		Estimated time:	0.00 hour
Target version:	Sprint 38		

Description

To reproduce:

1. Create GISAS fit simulation (sample + instrument + real data)
2. Run simulation. Fit view will be opened
3. Drag a parameter (e.g. beam intensity) to "Fit Parameters" window
4. Double click on min or value of the fit parameter will cause a crash

The bug is stably reproduced on Kubuntu 18.04. It existed at least at commit b0cd6e6570c1c38c7331139e14540ccdf30b548d
