

## BornAgain - Bug #2118

### Fix CMake for the installation to user directory

19 Jul 2018 14:13 - pospelov

<b>Status:</b>	Rejected	<b>Start date:</b>	19 Jul 2018
<b>Priority:</b>	Immediate	<b>Due date:</b>	
<b>Assignee:</b>		<b>% Done:</b>	0%
<b>Category:</b>		<b>Estimated time:</b>	0.00 hour
<b>Target version:</b>	Sprint 38		

#### Description

- cmake -DCMAKE\_INSTALL\_PREFIX=../installed tries to install BornAgain to /BornAgain-1.12.0 directory
- So it fails since it requires /root privileges

Expected behavior:

- Should install to ../installed
- Before commit 9f03c1e3 cmake was showing

```
bin->bin,  
lib->lib/BornAgain-1.12,  
gui->lib/BornAgain-1.12,  
include->include/BornAgain-1.12,  
share->share/BornAgain-1.12/  
examples->share/BornAgain-1.12/Examples,  
images->share/BornAgain-1.12/Images,  
libexec->lib/BornAgain-1.12
```

- after this commit

```
bin->/BornAgain-1.12,  
lib->/lib/BornAgain-1.12,  
gui->/BornAgain-1.12,  
include->/include/BornAgain-1.12,  
share->/share/BornAgain-1.12/  
examples->/share/BornAgain-1.12/Examples,  
images->/share/BornAgain-1.12/Images,  
libexec->/BornAgain-1.12
```

after this commit
