

BornAgain - Bug #2162

Jobs which was autosaved during the run stays in running state after project restore.

19 Sep 2018 17:11 - pospelov

Status:	Resolved	Start date:	19 Sep 2018
Priority:	Normal	Due date:	
Assignee:	pospelov	% Done:	0%
Category:		Estimated time:	0.00 hour
Target version:	Sprint 38		
Description			
<ul style="list-style-type: none">• Start new project, save• Create long running job to give autosave a chance• Make GUI crashing during job run <p>Easiest is to modify temporarily code to throw an exception on some button push</p> <ul style="list-style-type: none">• Start GUI again, load autosaved version• You will find in JobView your restore job in still running state, no data shown• GUI will not let you to remove "running" job <p>On loading "autosaved" data check that jobs are not "running". If so, set them in "FAILED" state.</p>
