

BornAgain - Bug #2183

Export to python doesn't add extension to file name

04 Oct 2018 11:09 - dmitry

Status: Resolved	Start date: 04 Oct 2018
Priority: Normal	Due date:
Assignee: juan	% Done: 100%
Category:	Estimated time: 0.50 hour
Target version: Sprint 39	
Description To reproduce: 1. Create simulation, press "Export to python script" in simulation view 2. Press "Save to file" 3. type in any name Although file type *.py is default, no extension is appended to the file name Tested on Kubuntu 16.04	

History

#1 - 17 Oct 2018 12:02 - juan

- Assignee set to juan
- % Done changed from 0 to 100
- Estimated time set to 0.50

Reproduced on Ubuntu 16.04.
Now solved.
Pull request on its way.
