

BornAgain - Bug #2187

Wrong parameter values displayed in real time widget

05 Oct 2018 09:58 - pospelov

Status:	Resolved	Start date:	05 Oct 2018
Priority:	Normal	Due date:	
Assignee:	pospelov	% Done:	0%
Category:		Estimated time:	0.00 hour
Target version:	Sprint 38		

Description

- Start new project, drag-and-drop sample with Paracrystal2D
- Change DomainSize1 from 20000.0 to 80000.0
- Run simulation, go to real time view
- Double click on DomainSize1

Suddenly, the displayed value 80000.0 will be replaced by 20000.0

Seems it is only displayed value, the value beneath will be still 20000
