

BornAgain - Feature #2197

3DView: provide default selection of MultiLayer on 3DView open

12 Oct 2018 16:39 - pospelov

Status:	Backlog	Start date:	12 Oct 2018
Priority:	Normal	Due date:	
Assignee:		% Done:	0%
Category:		Estimated time:	0.00 hour
Target version:			
Description			
Users are confused that they do not see anything in 3D view when no item is selected.			
Suggestion:			
<ul style="list-style-type: none">• Change default behavior - on 3D view first multilayer should be selected in 3D view• It has to be by default in locked state to show always multi layer• to see smaller sample parts, one have to explicitly unlock it
