

BornAgain - Feature #2346

Enable qspace visualisation for large inclinations

08 May 2019 12:05 - herck

Status:	Resolved	Start date:	08 May 2019
Priority:	Normal	Due date:	
Assignee:	herck	% Done:	0%
Category:		Estimated time:	0.00 hour
Target version:	Sprint 41		
Description			
When the inclination angle is 90 degrees, qy-qz space doesn't make a lot of sense anymore. So for large angles, it would be better to use qx-qy. Another solution would be to specify the q axes to be used (two options would probably suffice: qy-qz and qx-qy)
