<b>Description</b>			
Follow up of the extra request from Feature 2294, "3DView: Provide button to save image" ( <a href="http://apps.jcns.fz-juelich.de/redmine/issues/2294">http://apps.jcns.fz-juelich.de/redmine/issues/2294</a> ): A nice feature to have is the ability to save a short animation in which the sample rotates, so it is viewed from different angles.

- Priority changed from Normal to Low

I have changed priority to low. We can think of many niceties, but some are much more important than the others. For example, the issue [#2281](#) is to my opinion is quite important

- to move sample into attractively looking position before making screenshot
- to see sample components if they are large (>1000nm)
