redmine configuration: send out correct links

03 Apr 2013 10:28 - wuttke

| | |
|----------------------------------|----------------------------------|
| Status: Archived | Start date: 03 Apr 2013 |
| Priority: Normal | Due date: |
| Assignee: herck | % Done: 0% |
| Category: | Estimated time: 0.00 hour |
| Target version: Sprint 13 | |

Description

In messages generated by redmine, links start with "http://localhost:3000", which obviously is wrong for all hosts but one. This concerns e.g. issue notifications or password reminders.

History

#1 - 11 Apr 2013 13:14 - wuttke

- Target version set to Sprint 13

#2 - 15 Apr 2013 14:24 - herck

- Status changed from New to Resolved

- Assignee set to herck

#3 - 03 Jun 2013 10:51 - herck

- Status changed from Resolved to Archived
