

## BornAgain - Feature #405

### Move filepath definitions to one single class/namespace

24 Sep 2013 09:59 - herck

<b>Status:</b>	Rejected	<b>Start date:</b>	24 Sep 2013
<b>Priority:</b>	Normal	<b>Due date:</b>	
<b>Assignee:</b>		<b>% Done:</b>	0%
<b>Category:</b>		<b>Estimated time:</b>	0.00 hour
<b>Target version:</b>			
<b>Description</b>			
Currently, all functional tests are required to define "magic paths" that refer to reference data with which to compare the results of the simulation. By moving all these paths into a single class/namespace (e.g. Utils::FileSystem), maintenance and changes to filesystem handling are more easily accomplished.			

#### History

---

#1 - 19 Dec 2013 16:06 - **pospelov**

- Status changed from Backlog to Rejected

This was done already by introducing FileSystem.h and BAConfigure.h
