

BornAgain - Support #490

Provide script collecting information about user system

11 Nov 2013 13:55 - pospelov

Status: Rejected	Start date: 11 Nov 2013
Priority: Low	Due date:
Assignee:	% Done: 0%
Category:	Estimated time: 0.00 hour
Target version:	
Description This script has to collect information about user system and store it in the file. We could ask the user sent this to us by email. For example, if the user tries to run our example under windows and it crashes silently due to the absence of pylab, we will know from our script what had happened.
