

BornAgain - Feature #823

Allow multiple ILayout objects per layer

26 Sep 2014 12:58 - herck

Status:	Archived	Start date:	26 Sep 2014
Priority:	Normal	Due date:	
Assignee:	herck	% Done:	0%
Category:		Estimated time:	0.00 hour
Target version:	Sprint 24		
Description			
The goal would be that incoherent superpositions of scattering intensities (like in the Local Monodisperse Approximation) can be easily constructed this way. It also allows for more flexibility as one can then simulate incoherent superpositions of Decoupling Approximations with Size Space Coupling Approximations.
