

BornAgain - Feature #972

Feature # 861 (Rejected): === Website & Examples ===

Setup and describe GUI-version as the default program, add Qt5 dependences to online installation instructions, and use the distributions' native Qt5

17 Feb 2015 19:58 - wuttke

Status:	Archived	Start date:	17 Feb 2015
Priority:	Low	Due date:	
Assignee:	pospelov	% Done:	0%
Category:		Estimated time:	0.00 hour
Target version:	Sprint 26		
Description			
As agreed in today's meeting, BornAgain-the-program should be identified with GUI version. Born-Again-the-library, which can be operated through Python scripts, should be described as a variant thereof, targeted at specialists.			
TODO:			
- In the cmake files, set BORNAGAIN_GUI=ON by default.			
- Update the Unix build instructions			
- to describe GUI version first			
- to list Qt5 along with other dependencies.			
- Where possible, use the distributions' native Qt5 packages			
- Under Debian, I need at least some of the following packages:			
qt5-default libqt5designercomponents5 qttools5-dev qtscript5-dev			

History

#1 - 17 Feb 2015 20:05 - wuttke

To discuss in this context: Shouldn't the GUI version become the default, and installation without GUI just a footnote for specialists? A decision is also needed before the man page can be written (issue [#394](#)).

#2 - 18 Feb 2015 13:54 - wuttke

- Subject changed from add Qt5 dependences to online installation instructions to Setup and describe GUI-version as the default program, add Qt5 dependences to online installation instructions, and use the distributions' native Qt5

- Description updated

#3 - 15 Apr 2015 16:37 - herck

- Tracker changed from Bug to Feature

#4 - 15 Apr 2015 17:55 - pospelov

- Assignee set to pospelov

- Priority changed from Urgent to High

#5 - 17 Apr 2015 10:39 - pospelov

- Status changed from Sprint to Resolved

#6 - 21 Apr 2015 17:02 - pospelov

- Status changed from Resolved to Archived

#7 - 28 Apr 2015 19:08 - wuttke

- Priority changed from High to Low
