Description			
<p>On http://www.bornagainproject.org/node/72, the section header "Experimental Setup" is inappropriate: The figure does not show a setup, but a collection of idealized particle shapes.</p> <p>I understand that this header comes from a template, and should possibly be uniform for all example pages.</p> <p>Proposal: "Real-space model"</p>

Home » Administration » Structure » Content types » Python Examples: changed "Experimental Setup" into "Real-space model", which is hopefully adequate for *all* Python Example pages.
